REASONS FOR ALLOWANCE

The following is an Examiner's Statement of Reasons for Allowance:

The prior arts of record teach a method and system for providing non-invasive monitoring capability for systems and applications not designed for integration with monitoring applications. Further discloses is a Watcher tasked with accessing data relating to the system or application, analyzing the data to determine the existence of a monitoring event, and notifying a monitoring system of the monitoring event. Gibson et al., U.S. Patent Application No. 2004/0122940 is one such example of prior art. The prior arts of record, however, fails to teach, singly or in combination, installing a counter-invasive software application to create evidence of invasive activity, taking remedial action against an obligor to obtain an obligation and monitoring compliance by the obligor. The subject matter sought to be patented as recited in the claims in this application has practical applications in the field of computerized method of testing and tracking.

Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably **accompany** the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Nadeem Iqbal whose telephone number is (571)-272-3659. The examiner can normally be reached on M-F (8:00-5:30) First Friday Off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Scott Baderman can be reached on (571)-272-3644. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
